IMPROVE PUNCTUALITY IN AIRPORTS ?

France·CDG – 2026

01 THE CHALLENGE

- Ensure fast, coordinated aircraft turnaround
- Minimize delays and congestion at gates
- Synchronize ground operations across multiple teams
- Improve punctuality and the passenger experience

02 THE SOLUTION

LED Displays installed outdoors in front of passenger boarding bridges
- Displays ultra-precise, synchronized information
- Visible to ground crews, technical staff, and cockpit crew
- Industrial-grade design: weatherproof, UV-resistant, legible in all lighting

03 THE RESULT

- Improved coordination during critical turnaround phases
- Faster, smoother operations = fewer delays
- Indirect benefit to passengers: more on-time flights, less stress
- Reinforces Roissy-CDG’s image as a high-performance international hub
