

FRANCE – EAP

THE AIRPORT CHALLENGE

Integrate a CB C3 within a 14-meter-long checkpoint while improving passenger experience and maintaining maximum system performance.

THE SOLUTION

X-Lane by TG Concept: a compact and optimized checkpoint

Reduced checkpoint processing time

No need to remove liquids or laptops (CB C3 technology)

Faster, smoother and more intuitive passenger flow

THE RESULT

CAPEX & OPEX rationalization

No building/Infrastructure modification required

A modern, scalable and future-ready checkpoint
