

USE CASE

How to gain a consolidated, real-time view of safety, risks and compliance ?

FRANCE – LYS

THE AIRPORT CHALLENGE

Fragmented SMS and compliance management across multiple tools
Lack of a consolidated view of events, risks, regulations, audits and actions
Time-consuming audit preparation

THE SOLUTION

Integrated SMS core management (safety reports & risks)
Compliance & audit monitoring, including regulatory access
Operational, action-driven tool

THE RESULT

30 to 50% time savings on safety event management
Real-time, consolidated SMS & compliance view
Fewer audit findings and stronger Authority confidence
