

AIRPORT CHALLENGE

ICN – 2024

With the expansion of Terminal 2, which had quadrupled its original length, Incheon International Airport sought to improve passenger flow in the terminal

SOLUTION

- Otis installed of 20 elevators, 80 escalators and 72 moving walkways, including Asia's longest continuous moving walkway at 136 meters
- Delivered quality and safety through advanced technical capabilities and rigorous quality assurance.

RESULT

- Otis designed an innovative, synchronized dual-motor system to improve operational efficiency and provide seamless operation
- Airport infrastructure upgrades increased the airport's annual passenger capacity from 77 million to 106 million
